## **BookletChart**<sup>™</sup>

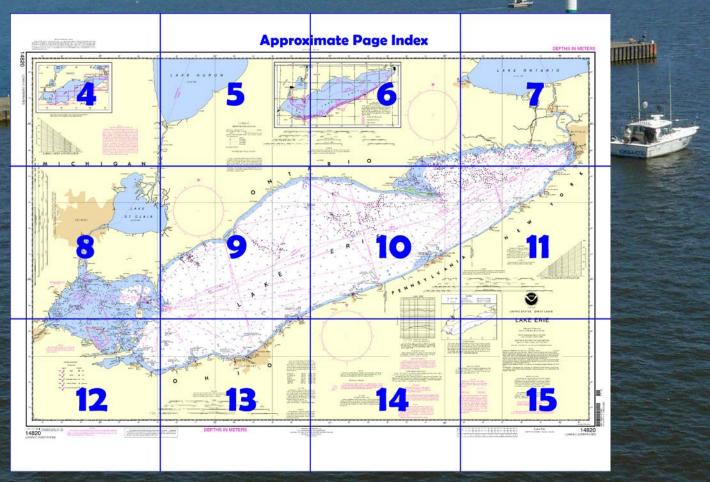

NOAR NOATMONTON U.S. DEPARTMENT OF COMMERCE ARTMENT OF COMMERCE AR

Lake Erie
NOAA Chart 14820

A reduced-scale NOAA nautical chart for small boaters When possible, use the full-size NOAA chart for navigation.

- Complete, reduced-scale nautical chart
- Print at home for free
- Convenient size
- Up-to-date with Notices to Mariners
- Compiled by NOAA's Office of Coast Survey, the nation's chartmaker

# Published by the National Oceanic and Atmospheric Administration National Ocean Service Office of Coast Survey

#### What are Nautical Charts?

Nautical charts are a fundamental tool of marine navigation. They show water depths, obstructions, buoys, other aids to navigation, and much more. The information is shown in a way that promotes safe and efficient navigation. Chart carriage is mandatory on the commercial ships that carry America's commerce. They are also used on every Navy and Coast Guard ship, fishing and passenger vessels, and are widely carried by recreational boaters.

#### What is a BookletChart<sup>™</sup>?

This BookletChart is made to help recreational boaters locate themselves on the water. It has been reduced in scale for convenience, but otherwise contains all the information of the full-scale nautical chart. The bar scales have also been reduced, and are accurate when used to measure distances in this BookletChart. See the Note at the bottom of page 5 for the reduction in scale applied to this chart.

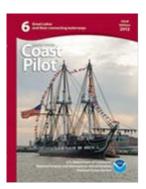

Whenever possible, use the official, full scale NOAA nautical chart for navigation. Nautical chart sales agents are listed on the Internet at <a href="http://www.NauticalCharts.NOAA.gov">http://www.NauticalCharts.NOAA.gov</a>.

This BookletChart does NOT fulfill chart carriage requirements for regulated commercial vessels under Titles 33 and 44 of the Code of Federal Regulations.

#### **Notice to Mariners Correction Status**

This BookletChart has been updated for chart corrections published in the U.S. Coast Guard Local Notice to Mariners, the National Geospatial Intelligence Agency Weekly Notice to Mariners, and, where applicable, the Canadian Coast Guard Notice to Mariners. Additional chart corrections have been made by NOAA in advance of their publication in a Notice to Mariners. The last Notices to Mariners applied to this chart are listed in the Note at the bottom of page 7. Coast Pilot excerpts are not being corrected.

For latest Coast Pilot excerpt visit the Office of Coast Survey website at <a href="http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148">https://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=148</a> <a href="https://www.nauticalcharts.noaa.gov/nsd/searchbychar

(Selected Excerpts from Coast Pilot)
Lake Erie is the southeasternmost and fourth largest of the five Great Lakes. With a greatest depth of 210 feet, it is the shallowest of the lakes and the only one with a floor above sea level. The deepest part of the lake is generally at the E end, while the island region in the W part of the lake is the shallowest. The lake has an average depth of 62 feet. The lake is fed at the NW end by water from Lake Huron via St. Clair River, Lake St. Clair, and Detroit

River. The only natural outlet of the lake is at the NE end through Niagara River. **Welland Canal** bypasses the falls and rapids of Niagara River and provides a navigable connection to Lake Ontario.

For about 25 miles W from a line between Point Marblehead on the S shore and Point Pelee on the N shore, Lake Erie is rendered foul by a group of islands and shoals. The main route for large vessels is through Pelee Passage in the N part of the area, but other passages of limited capacity are also available to the S. Submerged fish net stakes may be encountered throughout the W end of Lake Erie.

The International boundary between the United States and Canada extends through this area in a series of straight lines bearing from the E into the NW.is in Canada going back to the head of the St. Lawrence River

#### VHF Marine Radio channels for use on the waterways:

**Channel 6** – Inter-ship safety communications.

Channel 9 – Communications between boats and ship-to-coast.

Channel 13 – Navigation purposes at bridges, locks, and harbors.

**Channel 16** – Emergency, distress and safety calls to Coast Guard and others, and to initiate calls to other

vessels. Contact the other vessel, agree to another channel, and then switch.

Channel 22A – Calls between the Coast Guard and the public. Severe weather warnings, hazards to navigation and safety warnings are broadcast here. Channels 68, 69, 71, 72 and 78A – Recreational boat channels.

**Getting and Giving Help** — Signal other boaters using visual distress signals (flares, orange flag, lights, arm signals); whistles; horns; and on your VHF radio. You are required by law to help boaters in trouble. Respond to distress signals, but do not endanger yourself.

#### **Distress Call Procedures**

- Make sure radio is on.
- Select Channel 16.
- Press/Hold the transmit button.
- Clearly say: "MAYDAY, MAYDAY, MAYDAY."
- Also give: Vessel Name and/or Description; Position and/or Location; Nature of

Emergency; Number of People on Board.

- · Release transmit button.
- Wait for 10 seconds If no response Repeat MAYDAY call.

HAVE ALL PERSONS PUT ON LIFE JACKETS!

NOAA Weather Radio All Hazards (NWR) is a nationwide network of radio stations broadcasting continuous weather information directly from the nearest National Weather Service office. NWR broadcasts official Weather Service warnings, watches, forecasts and other hazard information 24 hours a day, 7 days a week.
